

QUEEN MARIE OF RUMANIA TELLS TRICKS OF TRADE

"Forget Yourself and Live For Others" Key to Success as Ruler, She Says.

BUCHAREST, June 15.—"How to be a successful queen?" said Queen Mary of Rumania repeating the question of the correspondent.

"Why, it is something of a trade to be a queen, and the chief implements of the trade are courage and courtesy. Smile when your head is aching, smile when you are ready to drop from fatigue and worry, smile when all is going wrong, smile at good news and at bad news. Always keep yourself interested in others. No matter how great may be the strain on your patience when talking or listening to a bore, make him or her think the conversation is vital. Never think of your personal troubles but those of your country. I don't even own up when I know that I don't know a thing; but I always go out and find out all about this unknown subject."

Ask anybody, peasant or politician, who rules Rumania, and they

will look at you with eyes wide open in surprise and say: "Why, the queen of course."

Learning the Trade. Queen Mary is the scene-shifter, the silken hand, the power behind the throne of King Ferdinand every minute. Since she came out from England, nearly 25 years ago, she has been learning this trade of being queen, and now she has been at it for more than five years, in place of Queen Sylvia, and she has made it her business to know her country and her people.

She aspires to be queen in every sense, and she is quite as willing to take the duties of the job as well as its pleasures. As for its pleasures she gets all the fun she can out of it, dresses as well as she can, to enhance her beauty which is famous. "If a queen goes around, shabby and red-nosed, it makes a great deal of difference, I think," she said. "It is not expected of us and so why should I do it? I felt rather mortified when in Paris just after the armistice and I had to attend receptions frequented by all the beauties of the world, and was not able to wear some of my splendid jewels which had been sent to Moscow. Just to think I had four or five crowns, some of them inherited from my Russian mother, and not a one to wear in Paris."

Willing to Shoulder Duties. That the queen is quite as willing to shoulder the duties of queenship is testified to by thousands of men and women who met her during the German occupation of Rumania. As a Red Cross nurse she was visiting the hospital of the incurables at Jassy. When she and the surgeon

POPULATION FIGURES

By United Press: WASHINGTON, June 15.—The census bureau Tuesday announced the following 1920 population figures:

| City | Pop. | In. | De. | Per. |
|-------------------|--------|--------|-----|------|
| Johnstown, Pa. | 67,327 | 11,845 | | |
| York, Pa. | 47,469 | 2,749 | | |
| Haverhill, Mass. | 35,884 | 9,759 | | |
| Columbus, Miss. | 19,501 | 1,513 | | |
| Dunbar, Pa. | 1,697 | 303 | | |
| Smithport, Pa. | 1,568 | 249 | | |
| Pascagoula, Miss. | 5,082 | 2,703 | | |
| Fremont, O. | 12,468 | 2,529 | | |
| Garret, Ind. | 4,790 | 641 | | |
| Dyersburg, Tenn. | 4,444 | 2,265 | | |
| Rensselaer, Ind. | 2,912 | 519 | | |
| West Allis, Wis. | 13,575 | 7,129 | | |
| Aberdeen, S. D. | 15,337 | 3,784 | | |

reached the door of the hopeless; "there's no need of going in there, it is too dangerous," said the surgeon. "They are dying—it is my duty," answered the queen. Just after she entered the queen heard a dying soldier calling for his wife. Without a word the queen walked over to the bed of the typhus victim, saying "Here I am," and knelt and embraced the man, who died in her arms, happy.

The queen is a practical queen. In the same city of Jassy, this fact was discovered and when the mayor wanted to get the snow cleaned off the streets, he timidly applied to the queen for help. "Why bless you, of course I will help," said the queen, and she led the gang of snow-shovelers. After this whenever med-

icines and instruments were needed in the hospitals, or extra nurses, the queen was called upon. Once there was a bread famine. The queen got her own private motor cars scouring the country for flour and then she organized the bakeries of the city. She did the same when there was a wood and coal famine. "As a child I was taught to live for others," said the queen in one part of the conversation. "So, whatever I do I do naturally, without effort. As a little girl I was told that this was part of the trade."

WOMAN BATHER HAS CLOTHING STOLEN: SHE WEARS JEWELS

By United Press: KANSAS CITY, Mo., June 15.—Mrs. Helen Crawford of San Diego, Calif., had three diamond rings and a wrist watch left to wear when bathing pool burglars finished looting her bath house. The pool management allowed her to keep the bathing suit she wore. They loaned her an apron. Wearing these and her rings and wrist watch she was able to reach her hotel in a motor car.

FREE THIS WEEK ONLY At the Store Named Below A 10-Day Tube of Pepsodent

They Have Found the Way to Beautiful Teeth

All Statements Approved by High Dental Authorities

Dental science has found a way to combat film on teeth. It has been tested for years by able authorities in clinical and laboratory tests. Now leading dentists everywhere advise its daily use.

The method is embodied in a dentifrice called Pepsodent. This week we offer a 10-Day Tube to every home in this city, and we urge every home to get it. Let it prove itself.

Film is What Discolors

You can feel on your teeth a slimy film. It is ever-present, ever-forming. It clings to teeth, enters crevices and stays.

The tooth brush doesn't end it. The ordinary dentifrice cannot dissolve it. So it accumulates and may do a ceaseless damage.

Most tooth troubles are now traced to that film. And now it is known why brushed teeth still discolor and decay. The reason lies in that clinging film which the old cleaning methods omit.

Cause of Decay

That film is what discolours—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus the film is the teeth's chief enemy.

It Can Be Ended

Dental science has for years sought a

way to end that film, and the way has now been found.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

The way seems simple, but it is not. Pepsin must be activated. The usual method is an acid harmful to the teeth, so pepsin long seemed impossible.

What has been found is a harmless activating method. Now pepsin can be applied twice daily and left between the teeth. And millions of teeth are now being cleaned as they never were before.

Watch the Effects

We ask you to watch the effects. Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

Compare this method with the old. Read the facts about it. Then decide for yourself what is best.

Tartar and Stain

are based on film. This 10-Day Tube will show you that they are avoidable. And so is tooth decay.

Look in Ten Days

See how white the teeth are—how they glisten. You can see that the film is gone. You will know that teeth can be kept forever whiter and cleaner and safer.

Pepsodent PAT. OFF. REG. U.S.

The New-Day Dentifrice

An efficient film combatant, based on pepsin, now endorsed for constant home use by leading dentists everywhere.

The Store Named Below Will Supply the Free Tube on This Coupon

An Impossible Situation

Trying to stretch low telephone rates over high costs is bad enough.

But worse still for us—and you—is the fact that we can't make the many improvements which are necessary in your telephone service.

As a matter of fact, we can't keep the present service going on the present rates. Let's be frank about it.

Our rates, inadequate before the war, are only slightly higher now.

They must be made adequate. It's your service.
